

Regular Course Registration

Guide

What are pre-registration?

- ▶ There is a **difference** between the pre-registration and the actual enrollment in the course.
- ▶ The system of course pre-registrations is, in a way, a market research performed by the departments that offer the courses. The intent is to discover the **demand for courses** and determine whether increase or reduce the number of opened seminars.
- ▶ However, the pre-registration is **compulsory** and if you do not pre-register any courses, the university cannot guarantee that you will be able to enroll any.
- ▶ After the period of pre-registrations, an **automated enrollment** occurs. **You will be enrolled to the courses you have pre-registered, provided there was enough capacity.**
- ▶ In case you were **not enrolled** in a course you pre-registered, try to **choose a different time of the course**, enroll a **different course** or **wait to see if someone decides to drop that course during the period of enrollment.**
- ▶ Please read the detailed description of the process including the timeline and deadlines of each part of the process on Exchange Office [website](#).

1. Log into the university system InSIS

- ▶ Pay special attention to the “NOTE” field. In case of intensive courses, you will find the information regarding their schedule in this area.
- ▶ Also notice the value of “FREQUENCY” is different than the one of regular courses.
- ▶ Please note that **you cannot register more than two intensive courses** as these courses are taught by visiting professors and VSE cannot fully guarantee these courses will take place.
- ▶ On rare occasion, an intensive course can be cancelled due to cases of force majeure, such as an illness of the professor and so on.

8) Some of the courses have prerequisites...

- ▶ ... That means you would have to had passed certain courses in order to pre-register a course or that you might not be able to some of the courses concurrently.
- ▶ An example of this would be courses 5EN202 and 5EN252. Both are Microeconomics and the only difference between them is the language of instruction, which is why the system would not let you register both.
- ▶ However, prerequisites concern only domestic students as the courses offered to Exchange students do not have any built-in requirements in InSIS.

Using this feature is the easiest way to check your schedule for time collisions among the courses.

Should such a collision occur, please change your schedule as described above.

Congratulations!

Your courses have now been successfully pre-registered.

- ▶ Do not forget to check the status of your enrollment after the automated registration has occurred (see the dates [here](#)) to find out whether you have been enrolled into all of them.
